info@shreecomponents.com

#### MAIN BUSINESS SCOPE

Manufacturer, Exporter and Supplier of Metal Turned Parts in any alloys as per Custom Specification (Alloys: Brass, Copper, Bronze, Stainless Steel, Mild Steel, Aluminium)

## Quality Assurance

Quality Assurance is popularly known as QA Testing, it is defined as an activity & Assurance. We at Shree Components ensure by providing the best possible product / service to customers. We focus on improving the processes to deliver Quality Products to our valued customer.

Shree Components, use Quality Assurance to ensure that the product is designed and implemented with correct procedures. This helps reduce problems and errors, in the final product. Our aim of Quality control is to check whether the products meet the specifications and requirements of the customer, which evaluates people on their quality level skill sets and imparts training and certifications. Shree Components helps provide “perfect” service to our valued customers globally, we manufacture the parts as per European standards.

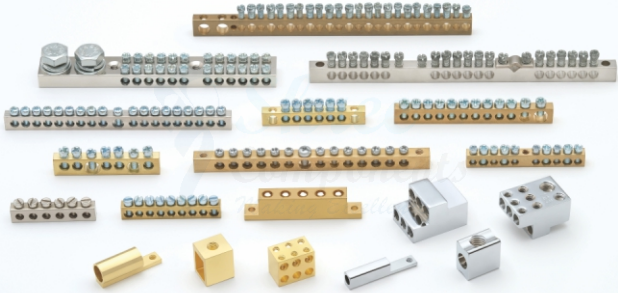

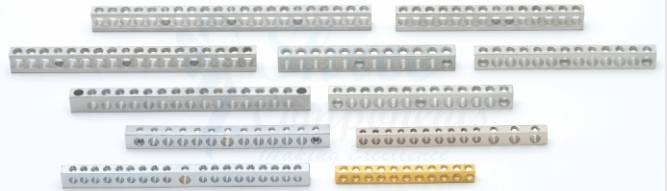

Quality assurance has a defined cycle called PDCA cycle or Deming cycle. The phases of this cycle are: Plan, Do, Check & Act.

- Shree Components plans and establish the process related objectives and determine the processes that are required to deliver a high-Quality end product.
- Development and testing of Processes and also “do” changes in the processes.
- Monitoring of processes, modify the processes, and check whether it meets the predetermined objectives.
- Implement actions that are necessary to achieve improvements in the processes.

## Machine Units

Manufacturer & Exporters of  
Brass, Copper and Stainless Steel  
Precision Components.
